temperature 14°F

Feb 11, 1941 Halbach & Toussaint - 11:00 - 12:00

Partially clear earlier in evening. Clouds
 and fog on arrival. Full Moon. No observing

Feb. 15 1941

Prinslow, George & Schoenbe arrived at 8:45
 Prinslow & Schoenbe worked on Specials. George
 on variables. Moon came up and spoiled seeing
 Left at 3:30 Temp. 12°

Feb 17, 1941

Sgtm. Swington, and King
 arrived 11:35 P.M.

 $0^{\circ} F$

Had a little engine trouble. Wind abn-
 going out. High drifts on road by
 morning sure. Admiral Byrd has
 nothing on us!!! Decided to go in right
 away, reasons:

- (1) Couldn't do much good observing or recording
 in this cold wind.
- (2) Snowblow very high 10-20 ft. might
 come in sight.
- (3) Engine would not likely be obstructed if
 left to freeze.
- (4) Would need snow plow to get out.

So, we left at 12:15.

Feb 18, 1941

Halbach 8:00 - 11:00 (22-23)

OH
YEAH?

DL. & D.S.

Same high wind } Not so bad when dressed
 Temp at -6° } well. Out for 1 hr. at a
 time.

Wed. 2-19-41 Albert & Sturkey
arrived at 7:00. Temp +5° very windy -
Left at 10:30. Still windy Temp 0.

Thursday 2-20-41 Lovinus
arrived 7:35 Temp +7° - windy - clear -
can see 6M. very easily Left 9:45 WINDY

Sun. Feb. 23, 1941.

Ball Jr, Renk, and Toyek arrived at 7:20 P.M.
Temperature +17°F. Sky - perfect. (NOTE: - Coal
and wood exhausted.)

Left 13:00 o'clock ~1~	Ball - 20 - 28 - 28	Slight Aurora
